The correspondent of the Daily Mail at Constantinople hears that the Bulgars are marching towards Ga'lipoli, where the waters of the Dardanelles meet the Sea of Marmora. If this is true, the Bulgarians evidently intend to attempt the capture of the forts along the straits. The Greek fleet will, in the event of the success of the Bulgars, be able to steam through the Dardanelles up to the very shadows of the mosques of the capital.

A number of Bulgarians were caught trying to cut the telegraph wires at Ean Stefano, where 22,000 Asiatic troops are expected. Sixteen Chousand of these soldiers have al-ready arrived from Erseroum and are soing to Tchataldja. Seventy thousand more are coming from Mesopotamia, Kurdistan, Damascus, Diardekr and Pagdad. A large propostion of these are destined for the northern part of Thrace, presumably for Midra.

REASSURES THE CITY

Minister of Interior at Constantinople

Issues a Proclamation. Constantinople. Nov. 11.-The min-Orter of the interior, with a view to calming the excitement in the city, has issued a frank proclamation in which he admits that the results of the war have hitherto not been as favorable to the Turks as could have been wished. The army, he states, is especentrated at Tchataldja, and the government hopes that it will be able to put up a successful resistance. Nevertheless, says the minister, there a possibility of the Turkish troops being defeated, and even if this is only a 1 to 10 chance it must be taken into consideration.

The minister appeals for calmness and enjoins on all to attend quietly to their every-day business. He threatens to enforce severe penalties against

BALKAN STATES' DEMAND

Elimination of Sovereignty of Sultan

London, Nov. 11.—The Turkish gov- many, Austria-Hungary and Italy, said Premier Pachich of Servia. The premier laid emphasis on the fact that the allied Balkan states were working in harmony on all questions. He declared that they demanded the complete disappearance of the sovereignty of the sultan from European Turkey and the division of the territory among the victorious nations belonging firearms, knives and daggers from ing to the Balkan league. The partition of Turkish territory, he said, had already been arranged along broad lines by the allies, the only questions left open for discussion being those relating to the destiny of Constanti nople, Saloniki and the Dardauelles.

Belleves Work of Legislature Cap Be Finished In Sixty Days.

Columbus, O., Nov. 11.-Governorelect Cox is hopeful of seeing the completion of the work of the next legislature in a shorter time than that required by any previous session. It is thought there is a probability of adjournment sine die within two months after the governor is inducted

In working toward a short session probably the greatest single means will be the efforts of the board of administration. Within the next few weeks a committee of four from this body will make plans for spending approximately \$8,000,000 during the next two years. Estimates of the cost of maintenance, proposed renairs and other purposes, such as the erection of new buildings, will be submitted by the superintendents of the several state institutions, and with this knowledge at hand the board will strive to reach the lowest possible appropriation figures to submit to the general assembly.

MAKE GREAT GAIKS

Socialist Vote Increases 100 Per Cent In Four Years.

New York, Nov. 11 .- The Soc'alist ote in the United States at the late election was hearly 100 per cent greater than the vote cast for that party's candidates in the presidential ection of 1908. The spread of the doctrine seems to have been confined to no particular section, nearly every state showing an unusual increase.

Many Socialist leaders declare that s still greater showing would have been made had Colonel Roosevelt not inaugurated the Bull Moose movement, which attracted many voters. It is believed that when all the re turns have been canvassed it will be

found that a score or more Socialists throughout the country will have been elected to state legislatures. From the far south comes the story that in Mississippi Debs received a

total vote greater than President Taft. In the far west California gave him 66,350 votes, or 37,691 more than he received four years ago. In Wisconsin also the vote was doubled. There Are Exceptions

General Arbitration Treaty and Settlement of International Fisheries Dispute His Most Notable Achievements During His Stay In Washington-Was the Most Popular of Great Britain's Envoys to This Country.

Washnigton, Nov. 11.-James Bryce. Great Britain's ambassador to the United States since 1907, has resigned.

It was learned that he has sent his resignation to the British foreign office and has asked to be relieved as soen as possible. Ambassador Bryce has asked to be relieved merely because he has become tired of being abront from his own country and desires to spend the closing years of his life there. The ambassador called at the White House and had an hour's talk with President Taft. It is assumed that he notified the president

informally of his intention. Ambassador Bryce's resignation omes also before any settlement has been brought about of the differences between the United States and Great Britain in regard to the Panama canal tolls. Mr. Bryce's friends denied that there was any dissatisfaction on the part of the British government with his conduct of the Panama tolls case.
